CHARGED WITH SELLING ADULTERATED MILK.**Three Arrested, But One Escaped as Officer Was Bringing Prisoners to Town.**

Yesterday afternoon Officer Trevino arrested Lazaro Garza, Tomas Alvarez and an American whose name could not be learned on a charge of selling adulterated milk in the city. The arrests were made on North St. Charles street and the officer started to town with his prisoner walking in front of him, taking them to the City Hall. All went well until within about a couple of blocks of the market house, when the American, who was leading the procession, suddenly took to his heels, turning a corner, and made his escape. Although the officers have been unable to obtain the name of the man in question, they have a good description of him and he will be arrested the first time he comes to town. The two Mexicans were released on bond pending a trial before the mayor.

The milk which was seized from the three men by one officer was tested at the market house by Chief of Police Crixell and it was found about two-thirds of it was water.

ENORMOUS DEMAND FOR PULLMAN CARS.**Many Steel Freight Cars and Street Railway Equipment Also Ordered, Says Pullman Manager.**

An interesting bit of information bearing upon the condition of the railroads in this country was given by H. B. Williams of Pullman, Ill., who returned last night from a short hunting trip to Point Isabel. Mr. Williams is connected with the sales department of the Pullman Car Co. The company, he says, has more orders in hand today than it can possibly fill; in fact its entire capacity for the next two years is already booked. These orders are not only for the so-called "Pullmans" of various kinds, but also for street railway and freight cars, a large order for all-steel freight cars having been received lately.

A recent law passed in Pennsylvania forbids the use of any but fire-proof sleepers. To comply with the provisions of this law, the Pullman Co. will be compelled to build 430 new sleepers to replace those now in use which at an average cost of \$30,000, will represent an outlay of about \$13,000.

Mr. Williams was greatly pleased with his first trip to Point Isabel. In former years he has hunted around Port Lavaca, but came down here this fall on the advice of some friends and is glad he did so. He left for the North yesterday.

The Landeros & Gonzales troupe of acrobats at the Iris theatre are proving to be the child wonders of the age for their work in ground and lody tumbling is said to be the best acrobatic work to be seen in America today. Their three high pyramid drop; their pivot swing and their extraordinary feat of turning ten somersaults in ten seconds are only a few of the wonderful feats that they accomplish. In full justice to them, it must be said that they are the only troupe of child acrobats appearing in America at this time, and their work is meeting with highest praise by both the press and the public. They are now on the Sullivan-Cosmopolitan circuit and their contracts will carry them to all parts of the United States during the coming year. They will make a big hit wherever they appear, as they are mere tot. of children, their ages ranging from three to twelve years. They perform many difficult feats with such ease and grace that it would make older performers hang their heads in shame.—Tampa, Fla., Morning Tribune.

The Landeros & Gonzales Troupe will show in Brownsville Nov. 25, beginning a week's engagement. It

MASURY

The name Masury means something. It designates QUALITY. Just as the word Sterling stamped on silver indicates fineness and purity, the word MASURY means the best—none other as good. It has taken fifty years' experience to level up the standard of the Masury Paints to the high level where it stands today—absolutely pure pigments; pure linseed oil—"net weights and full measure," every can labeled, giving actual percentage, composition, etc.
